

Postdoctoral position in Theoretical Cosmology at Bilbao, Spain

Applications are invited for a Postdoctoral position in the area of Theoretical Cosmology beginning in September 2019. The position will be held in the Department of Theoretical Physics at the University of the Basque Country (UPV/EHU), Bilbao, Spain. The successful candidates are required to hold a PhD at the starting date of the position.

Our group includes Ana Achucarro, Igor Bandos, Jose Juan Blanco-Pillado, Joanes Lizarraga, Juan Luis Mañes, Jon Urrestilla, Manuel Valle, Jeremy Wachter as well as several graduate students. The group also benefits from close ties with other faculty members of the department, which includes, Mariam Bouhmadi-Lopez, David Brizuela, Tom Broadhurst, Iñaki Garay, Iñigo Egusquiza, Alexander Feinstein, Jesus Ibañez, Ruth Lazkoz, Jose M. M. Senovilla and Raúl Vera.

Our research interests focus on inflationary cosmology, topological defects and other applications to cosmology within field theory as well as String Theory. For more information on the group see (<http://tp.lc.ehu.es/earlyuniverse/>). The appointment will be for two years.

Interested candidates should send a CV, statement of research interests and publication list, and arrange for at least three letters of recommendation to be submitted to:

early-universe-cosmo[AT]ehu.es

The deadline for applications is December 15th, 2018.
