- The numbers in parenthesis are the classroom number in the *Facultad de Ciencia y Tecnología* where the classes at each particular time slot will take place. In the cases where we have 2 different numbers this means that the classes for that time slot will take place in the first classroom in the list for the first 2 weeks in the semester (from 13th - 24th January) and in the second location for the remainder of the weeks.

- (S) : This code stands for the Aula de Seminarios del Departamento de Física Teórica.
